I am not having any luck selling the Amiga Nonlinear editing system deal of the century... so
I'll offer up the following goodies for sale:

AMIGA

Amiga hardware:

- VLAB Motion System with MovieShop software and Toccata 16 bit audio board (all software and manuals. LIKE NEW!) **\$1350.00**

Amiga software:

- Art Department professional 2.5 **\$ 85.00**
- ASDG's Morph Plus **\$ 85.00**
- Ami-back Version 2 backup software **\$ 75.00**
(includes Amiback plus tools)
- Final Writer version 3 **\$ 60.00**
- GPFAX (complete Amiga fax software) **\$ 30.00**
- Studio Printer Software **\$ 20.00**
- Devware PD software. 22 diskettes: **\$ 20.00 for all**
Desktop publishing, virus prevent,
3D, parbench, animation, screen blk,
imaging, games, Star Trek stuff,
copy software, databases, compression
- Pinball fantasies **\$ 10.00**
- T2 - the arcade game **\$ 10.00**
- OS 1.3 games includes: **\$ 15.00 for all**
Star Wars
Vyper (really good Galaxian ripoff)
Menace (excellent sound & my favorite!)
DataSorm (excellent Defenders ripoff)

NON AMIGA

- Sony professional SVHS editing recorder, model SVO-9600.
It includes SMPTE generator/reader & RS422 interface
Deck is like new with very low hours (under 10) **\$ 2250.00 **
 - Stealth VRAM Graphics board for PC. It is a ISA card with
one meg VRAM. It boasts super speed that's faster than
super VGA performance with numerous driver support
Like new and never used. **\$ 50.00
- **

Prices do NOT reflect shipping and COD charges. The buyer will

be responsible for this additional cost.

These prices are my lowest and are not negotiable(hardware only. I'll accept all offers for software). Everything comes with original packaging and manuals. All items are in excellent to mint condition!

Thanks,

Bill O'Kelly
